Guns Have Arrived Here for Exhibition

[BY ASSOCIATED PRESS.]

Washington, Sept. 26,-Thirty-nine German field guns captured by American soldiers in France have arrived in this country and are being distributed for display during the Fourth Liberty Loan drive which opens Saturday. The Liberty Loan publicity bureau told the story of the guns today. They range from three to six inches in calibre and bear the names of thousands of American soldiers pencyled on the gun themselves in the hope that they would be seen by friends and relatives at home.

Most of these guns were captured in the recent allied offensive between Soissons and Rheim, and they are evidence of the hasty retreat of the Germans. Several were wrecked and the muzzel of one blown off apparently by a defective shell. Manufacturers imprints show many were made as early as 1906.

The great army of postmasters and postal employes in the United States was instructed today by postmaster general Burleson, to do its utmost fer the Liberty Loan.

Quartermasters everywhere were ordered by Brigadero General R. E. Wood, acting Quartermaster General R. E. Wood, acting Quartermaster General R. E. Wood, acting Quartermaster General R. E. Mobilizing Doctors and Nurses to Fight New Influenza Epidemic

Washington. Sept. 26.—Stamping out of Spanish influenza which has extended to more than a score of army camps and many sections of the country, has been recognized by the government as a war measure. Medical and nursing units today were mobilized in communities where the epidemic has gained considerable head way under the general direction of a central committee directing the publicle health service and the army navy and Red Cross.

Immediate relief for the localities where influenza has gone beyond control of the local authorities will be the main task of the committee. It was explained that the principle relief will be awarded by units at home for with the possible extensive spread to other parts of the cauntry it would not be advisable to shift nurses and doctors back and forth. Traveling medical units will be mobilized through the volunteer medical scores. The Red Cross will provide compensation, tray-eling expenses and malmenance as a war measure and the work will be kept up until normal conditions are restored. Home defense units will be organized with such nurses as may be spared from other duties and each unit placed at the disposal of the central committee.

The following letter was received at the office of the Rock County Chapter, American Red Cross, from Central Division, Chicago, Illinois:

DOUBLY PATRICTIC.
Of course citizens of Janesville must keep up their Red Cross work and subscriptions, must subscribe to Liberty loans, buy War Savings attamps, and the unfortunates of other nations in the war zone and do so without complaining. This we expect, but cloth been at home is an activbut right here at home is an activwhich has not only borne fruit at present, but gives protaise of a healthy erop in years to come the Janesville Center. This organization that is handled by the lades of the city, this little room where the tred girls and visiting women can go to rest, have a enp of tea dud out information as to Janesville shops and street locations, is supported by the energies of this nations band of workers. Last year initions band of workers. Sast year they held a rummage sale and cleared almost a thousand deliars for their fund. This year they plan another. They do not go to the merchants or the business men and ask for centributions of cash to help support this Hipportant institution in our civic life; they plan to be self-supporting and ask for contributions of second hand or used articles that they may be sold and the money utilized. The demand for old clothes this past year has possibly depleted many an attle, but some of the stores in the city have articles which they can find on sale for and would be glind to dispose of, and this is the medium. This is not an adver-thement for this sale, that will come tater, but it is a forewarning that it is coming off and that it is the duty of chizens to help this cause here at home that does untolt good at a min-traum rost to the average individual.

A CLASSIC.
The Platatetphia Ledger says editorially on the coal and the war, words which will not fell amiss to Janesville residents who still lack fuel for the winter: "Like Panymo's ghost, the enal situ-

clion will not down, and there is accumulation evidence that those very problem that those very problem people in the way industries locard, whose duty it is to speed up production, are beginning to do a lit-de more than morely rest on the report of certain industries that delays are due to an inadequate coal supply. In the main, the war indusiries proplo know, as has been shown in the studies of the various coal fields, that babor difficulties caused by the draft and many other influences are the predisposing cause of the smarl in which the whole coal situation seems to be involved. But in addition it looks as if the failure of the coul administration to build up an intelligent and infensive system of local production is also playing a large part in this present shorters, and, what is more, that is combined with the shorters. In

present shortage, and, what is more, in the coming winter shortage. In many fields there is apparently no such thing as regulated production, with the local operators allotted and held to a certain given output. Fractical men have been suggesting this for a long while, and the war industries board, which, in one sense of the word is localizing production intense. word, is localizing production intensively, will probably look upon any system which will speed up eval production in given districts as a wise mar. Of course, such speeding up would involve taking up the question of labor from a new angle, but might produce results, and that is what the country wants."

SHOULD AMUSEMENTS CONTINUE?

Some people take the sufferings of war so hard that they feel that all aniusements should close up. They regard it as unfeeling to continue funces and theaters, while so many families have lost sons, and so many are anxiously reading the casualty Some towns are going so far as to close up places of amusements

The government has not, however, recommended any such policy. It recognizes that people must have light ediversions or we shall all get overstrained and morbid.

CAPTAIN MOFFETT BREAKS ALL RULES

[BT ASSOCIATED PRESS.]

Great Lakes, Ili., Sept. 26,—Captain William A. Moffett, commandant of Great Lakes Naval thaining station, has established a precedent in military regulations by issuing an order permitting any enlisted man "even of the lowest rank" to address a communication direct to him. Heretofore it has been an unheard of thing for a seaman to be in direct touch with his commandant in the army with his general.

Under the new order a seaman may address a letter concerning any ser lous subject directly to the command ant and present it to his regimental commander. The commander is prohibiting from "shelving" the communication or refusing to see the writer. In case the letter is not sent to the commandant, the writer may send a carbon copy directly to Captain Moffett.

The new policy is in line with Cap-tain Motfett's efforts to preserve the direct touch he keeps with all men under him.

The occasion was planned over night by those in charge of the Fourth Liberty Loan campaign for Chicago, and this district. If that patriotic demonstration was a criterion, the billions required to back our soldiers and sallors and flose of our allies will be indvanced by our people, not only will-tasts but engerly.

ndvanced by our people, not buy withingly but eagerly.

There were some good addresses, but no better than we have often heard in Rock County. There were the inspiring strains of the Star Spangled Banner and the Marcellaise by splendid military bands, but we have also heard these things in Rock County.

Spangled Banner and the Marcellajse by splendid military bands, but we have also heard these things in Rock County.

The unusual and intinitely interesting attraction was file group of men composed of some of the officers and privates of the French Poreign Legion. There was the Captain, who addressed us in French, and whose words were translated and interpreted by an army representative of Secretary Eaker. This captain was small of stature but keen of everand agil of movement, a "live wire," notwithstanding a slight limp. There were other officers, who were eager and alert, sitting on the edges of their chairs or standing on tipoes. And then there were the privates men from many nations, for the French Foreign Legion is the only military body open for volunteer enlistments by men from any nation, except, of course, an enemy. Those we saw in Chicago today were seasoned, hardened, gnaried veteruns. There were two or three scores of them. Upon the breasts of many were military medals. Every man had-been wounded from one to seven times. All of them had over 160 wounds to their credit. They never fail in their military purpose. Defeat is a word unknown in their vocabulary.

I studied their faces. I am sure they were not men who would null babes to barn doors, or crucity men, or ravish and murder women. But it would go hard with the Huns that met them in battle without he sense to surrender. Very fitting for them is the watch word of Verdun, They shall not pass."

They showed upon their faces amazement and pleasure as fluat audience of seven or eight thousand vent the mighty hall with cheer upon cheer "and then some", and through them oxpressed the gratitude and friendship of one great mation to another. Realizing all that this mass meeting and these events mean, we say that there cannot be any doubt as to the response of the American peop. for the request of our government for an additional six billion dollar loan.

Recently little Willie's grandmother came from an adjacent town for a few days' vist and, while the good woman was sitting on the veranda one afternoon, Willie approached with a questioning expression.

He Was "Broken"

Capt. Wallace, U.S.A., was a victim of sinister forces that sought to betray America to the enemy. But he "came back." On the battlefields of France he fought for the honor of the army that had discarded him. He lived to win vindication and the hand of the "daughter of the regiment" who had never doubted him.

"Fashions of the Hour" Ready Tomorrow Morning

Opening Tomorrow ad Saturd

If you'll take all conditions into consideration, this is without doubt the most important opening event we have ever held. Merchandise of dependable quality is scarce. Wholesale prices are high. And in many classes of goods it is nearly impossible to obtain any but very small assortments. How well we have overcome these conditions is clearly shown in our present stocks. Foreseeing to a great extent the existing market conditions, we have contracted for much of our our stock far in advance, thereby saving the rise in wholesale prices that have since occurred. In every instance, our prices give you the benefit of these savings.

This is truly a style exhibition, featuring the finest of Fall Fashions in generous assortments. Special displays make it possible for you to see these showings with

the greatest of ease.

There's Abundant Charm These New Suits

They are so distinctive, so attractive, that they can't help but be admired. The slim effect of the new Fall Suits give them a most becoming charm. The materials include fine quality Serges, Gabardines, Poplins, Tricotines, Broadcloths, Silvertones, Duvet de Laine, Jersey, etc., in all the new colors that have been pronounced correct.

A Splendid Showing of Strikingly Handsome New Skirts

The New Fall Coats Are the Most Becoming In Years

All the models are so attractive that it won't be a question with you of "shall I get a coat?" but rather, what model will I purchase? For indeed, a coat is a necessity this season. Not a single model that has beauty and style correctness to recommend it, has been omitted from this splendid showing. There are garments made of Pom Pom, Boliva, Wool Velours, Broadcloths, Silvertone, Kersey, Crystal Cloth, Jersey, etc., in all the favored shades for fall wear.

Don't neglect seeing this splendid assertment.

A Complete Showing of New Furs For Fall and Winter Wear

The vogue for furs has reached the highest point in years! Perhaps it is because of an inexplicable turn of fashion but we are convinced that it is because of the superb beauty of the models the designers have created. What the cause, the fact remains that the 1918-1919 Furs are developed to a nicety never before attained. There are Coats, Coatees and Capes in Natural Hair Seal, Brown Marmot, Natural Marmot, Coney, Hudson Seal, etc. Scarfs, Stoles and Muffs in Hudson Seal, Martin, Opossum, Coney, Lynx, Beaver, Raccoon, River Mink, Red Fox, Black Fox, Wolf, Marmot, Civet Cat, etc. The display is complete. Won't you accept our invitation to see it?

There's the Gracefulness of Youth In the Lines of the New Dresses

From the youthful neck and sleeve designs to the very hem of the skirt, the new Fall Dresses reveal simplicity in its most delightful form. You cannot see these dresses without realizing how much style and youthful grace they will lend to

The Newest of Blouses for Fall Wear. We've Never Had Prettier Than These

We searched the show rooms of the most exclusive manufacturers for the prettiest we could find, and we feel that we have them. We would like however, to have you see them, to give them an examination and then to inform us if you feel the same way about their prettiness as we do. The materials are Fancy Tub Silks, Wash Satins, Georgette Crepe, Crepe de Chine, Voiles, Organdies, etc. All the new fall shades are shown, some plain, others tucked, embroidered, beaded, lace trimmed, etc., revealing many new motifs that will prove very popular for the new season.

Hundreds upon hundreds of yards of the prettiest autumn Dress Goods you ever did see. To obtain good assortments of wanted weaves has been no simple task—to get more will be still more difficult. In view of these facts, we believe that you will appreciate the value of early selection while assortments are complete. All Wool Dress Goods in Serges, Poplin, Epingle, Tussa Poplin, Plaids, Broadcloths, Silk and Wool Poplins, etc. Coatings in Velours, Kersey and Tricotine, each different fabric suggestive of some becoming indoor or outdoor frock.

To the ingenuity and imitative of our own American makers are due the beautiful designs, the rich colorings and the splendid qualities of those new silks. Thrown to a greater extent than ever before, upon their own resources, they conquered all difficulties and produced many effective weaves both plain and fancy, particularly suited to the modes of the coming season.
